

DECISION SCIENCE FORUM

Decision Science Forum Agenda – May 3rd 2018 3pm CEST

Topic	Speaker
New customer/terminal “How can we service a new customer at an existing port, and what impact does this have on existing terminals”	Rienk Bijlsma
Improving port capacity “What is the impact of dredging, traffic rules & ship handling on wait times, berth occupancy & ship turnaround time”	Aubin Macquart
Port outlook “Both short & long term outlook on port capacity taking into account cargo volume, ship dimensions, weather”	Aubin Macquart
The cost of port waiting “Revealing the cost of waiting, the cost drivers, ways to compare ports and how to save money!”	Rienk Bijlsma
Questions	

The Decision Science Forum is intended to share knowledge and experiences amongst maritime professionals, to stimulate debate, discussions and generate common ideas and understanding. Each presentation covers a specific topic, applied to a case study in a real existing port. By participating in the forum, you can share your findings and ideas, learn from other experts in the field, and learn new insights on how to improve port capacity & performance!
